I

Firstly, I would like to extend my greetings to you as a Software Engineer and technology enthusiast. Hello. My passion for technology and my fascination with computers have been guiding forces since my childhood. Starting with Java, my journey has led me to gain extensive experience in both backend and frontend technologies, with solving complex problems becoming the goal of my life. Continuous learning and teamwork constitute the cornerstone of my career steps. I keep pace with the rapid changes in the world of technology and constantly strive to improve myself to adapt to these changes. I value knowledge sharing and aim to achieve better results by sharing my experiences with others.

My professional goal is to continue my career as a Full-stack Developer and acquire in-depth knowledge and skills in this field

EXPERIENCE

Startup Network

Turkey

Full-stack Developer

2024 September - Now

Fırat Üniversitesi Dijital Dönüşüm ve Yazılım Ofisi
